PROFESSIONAL SUMMARY

Supply Chain & Logistics Leader with 8 years of experience and a strong track record of driving enterprise-wide transformation, building scalable operating models, and delivering sustained business impact across complex, multi-node networks. Brings deep expertise across end-to-end supply chain, including planning, distribution, transportation, and digital logistics ecosystems, with the ability to translate strategy into measurable outcomes.

Recognized for leading large geographically dispersed teams across national operations and high-value programs, combining strong commercial acumen with technology-led transformation across TMS, analytics, and automation. Adept at influencing senior stakeholders, managing large budgets, and driving vendor strategy, contract negotiations, and performance governance to unlock efficiency and cost leadership.

Known for building high-performing teams, strengthening control tower capabilities, and embedding data-driven decision-making frameworks that enhance visibility, agility, and service excellence. Consistently delivers improvements in cost, service, and operational resilience, making a strong fit for leadership roles across supply chain, logistics, and transportation technology domains.

KEY ACHIEVEMENTS & LEADERSHIP IMPACT

- Delivered **₹5+ Cr annual cost savings** by leading enterprise-level logistics optimization and network efficiency initiatives
- Provided strategic leadership to a logistics control tower overseeing **100+ dedicated trucks**, achieving **₹4+ Cr annual savings** by driving network optimization, operational efficiency, and performance governance.
- Orchestrated **Transportation Management System (TMS) implementation**, improving planning visibility and reducing logistics cost by **1.5% (₹27 Lakhs annually)**
- Drove **network and fleet optimization strategy**, achieving **₹2 Cr cost reduction (3%)** through improved route planning and vehicle utilization
- Initiated **load optimization engine**, reducing secondary transportation cost by **4% (₹60 Lakhs annually)**
- Headed **automation and digital transformation initiatives (RPA, VBA)**, eliminating **3+ man-hours daily** and improving process efficiency
- Designed and deployed **data-driven decision frameworks (Power BI dashboards & KPI trackers)**, enhancing real-time visibility and leadership decision-making
- Improved **fill rate by 3% and service levels** through demand-supply alignment and inventory monitoring solutions
- Enhanced **GRN/TAT adherence by 4%** via automated alert systems and proactive exception management
- Strengthened **vendor performance and operational reliability** through structured tracking, governance, and performance metrics
- Enabled **cross-functional alignment across planning, logistics, and operations**, improving execution efficiency and reducing supply chain bottlenecks

CORE COMPETENCIES

Supply Chain & Planning

- End-to-end supply chain management (SCM)
- Demand planning, forecasting & S&OP
- Inventory optimisation & replenishment
- Distribution & network planning
- GT, MT & E-commerce channel management

Logistics & Operations

- Transportation & warehousing management
- Freight and last-mile delivery optimisation
- Operations management & execution excellence
- Order management & fulfilment
- Audit compliance & service KPI management

Analytics & Systems

- Data analytics & business intelligence
- Power BI, advanced Excel, macros & MIS reporting
- ERP- driven planning & decision support
- Transportation Management Systems (TMS)

Strategy & Transformation

- Supply chain strategy & process optimisation
- Cost optimisation, budgeting & strategic savings
- Digital transformation & automation (RPA, VBA)
- Continuous improvement & operations excellence

Leadership & Commercial

- Cross-functional leadership & team management
- Vendor selection, performance governance & SRM
- Contract management, negotiation & commercials
- Project and program management

PROFESSIONAL EXPERIENCE

LOGISTICS ANALYST

ITC Limited (Head Office), Chennai

(2024 – 2026)

- Lead **end-to-end logistics performance and cost governance**, contributing to **₹2+ Cr cost optimization** through network redesign and execution improvements
 - Spearhead **strategic cost initiatives**, delivering **multi-crore annual savings** via vendor strategy and load optimization
 - Own **TMS and automation initiatives**, improving planning visibility and reducing manual effort by **20–30%**
 - Partner with planning teams to **align transportation capacity with demand forecasts**, maximizing utilization by **4–5%**
 - Developed **Power BI dashboards**, enabling real-time tracking of KPIs and improving decision-making speed by **30%**
 - Directed **freight contracting and vendor negotiations**, achieving **2–3% cost reduction annually**
 - Delivered **RPA automation projects**, reducing **3+ man-hours per day** and improving process turnaround time
-

SUPPLY CHAIN EXECUTIVE (On Third Party Payroll)

Procter & Gamble Pvt Ltd (Regional Office), Chennai

(2022 – 2024)

- Streamlined **end-to-end supply chain operations**, Boosted **fill rate by 3%** across GT, MT, and E-commerce channels
 - Optimized **inventory planning and replenishment**, reducing stock imbalances and improving availability by **3–5%**
 - Conducted **forecast vs actual variance analysis**, improving planning accuracy and reducing supply gaps
 - Supported **S&OP execution**, enhancing cross-functional alignment and improving service levels
 - Developed **inventory monitoring tools**, improving decision-making speed and reducing manual effort by **20%**
 - Governed cross-functional coordination, improving order fulfilment efficiency and reducing delays
-

LOGISTICS SUPERVISOR

MRF Pvt Ltd (Corporate Office), Chennai

(2020 – 2022)

- Managed **pan-India transportation operations**, ensuring seamless movement of RM, FG, and WIP materials
 - Enhanced **OTIF performance by 3–4%** through better planning, tracking, and coordination with transporters
 - Oversaw **vendor performance management across 45+ transporters**, improving compliance, placement reliability, and service consistency
 - Strengthened **truck planning and deployment efficiency**, reducing delays and improving vehicle utilization
 - Guided **RFQ processes and contract coordination**, ensuring alignment with business requirements and service expectations
 - Developed **MIS and reporting frameworks**, improving operational visibility and reducing manual effort by ~20%
-

LINE LEADER (NEEM Trainee)

Brembo Brake Pvt Ltd (Plant), Pune/Kanchipuram

(2018 – 2020)

- Led **shop-floor operations and team performance**, ensuring production targets, quality standards
 - Improved **production efficiency by 5–6%** through process improvements and better workflow coordination
 - Reduced **product rejection rates** by identifying root causes and implementing corrective actions
 - Implemented **basic process controls and monitoring**, improving consistency and operational discipline
 - Drove **team productivity and performance tracking**, enhancing output and accountability
-

EDUCATION

OMBA (Expected 2026) – Logistics, Material & Supply Chain Management

Dr. D. Y. Patil Vidyapeeth, Pune, Maharashtra | 2024 – 2026

BBA (DL) – Computer Applications

Tamil Nadu Open University, Chennai, Tamil Nadu | 2020 – 2023

Diploma – Mechanical Engineering

PT Lee CNPT College, Chennai, Tamil Nadu | 2015 – 2018
